

## **Note to Parents Concerning Course Changes**

A great deal of time went into appropriately leveling your son or daughter into their current courses. Should a teacher deem a level adjustment necessary rest assured we will contact you to discuss a possible change. We respectfully ask that any consideration for a level adjustment, initiated by you or your child, be made to the student's counselor after the first parent teacher conference. This will afford teachers adequate time to get to know your child in the context of our curriculum. No course, even an elected seventh course, can be dropped once the school year begins.
